

Virtual Radiologic Signs Lease for New Minnesota Headquarters

Occupancy Slated for December 2008

MINNEAPOLIS, Dec 07, 2007 /PRNewswire-FirstCall via COMTEX News Network/ -- Virtual Radiologic Corporation (Nasdaq: VRAD), a leading national provider of teleradiology services, today announced that it has entered into a lease agreement for a new corporate headquarters to be constructed in Eden Prairie, Minnesota.

Virtual Radiologic will occupy 81,645 square feet of office space at Windsor Plaza, a five-story, mixed-use property to be located across from Eden Prairie Center at U.S. Highway 212 and Singletree Lane. Windsor Plaza will be home to Virtual Radiologic's corporate headquarters, including its Operations Center.

Site preparation for Windsor Plaza commenced in November and construction is expected to be completed by December 1, 2008, at which time Virtual Radiologic will assume occupancy and vacate two of its current office facilities at 5995 Opus Parkway in Minnesota, Minnesota, and 10333 W. 70th Street in Eden Prairie, Minnesota. The Windsor Plaza lease will commence upon completion of the building, and will extend for a term of 126 calendar months, with two additional five-year option terms to renew.

"Virtual Radiologic's growth has created the need for more office space than is currently available at our existing facilities," said Virtual Radiologic Chief Executive Officer Sean Casey. "Even after leasing an additional 10,000 square feet in November of 2006, we are again out of space. Windsor Plaza provides a convenient location for our employees and allows us to consolidate our offices in Minnetonka and Eden Prairie into one modern, efficient work environment. We are excited to call Windsor Plaza Virtual Radiologic's future home."

Eden Prairie-based Solomon Real Estate is developing Windsor Plaza, which will encompass 105,000 square feet of office space on 4.65 acres. The property will house an additional 35,000 rentable square feet of retail and restaurant space.

About Virtual Radiologic
